

Curso:

AutoCAD Architecture Essentials

Duración: 16 Horas / 4 sesiones de 4 horas

Horario: Común Acuerdo

Objetivo:

- Identify the basics of building design used to create architectural drawings.
- Identify tools and utilities used to group information and create an interactive view of an architectural drawing.
- Use architectural modeling to create and modify an architectural drawing.
- Use AutoCAD Architecture to create construction documents to communicate architectural design.

Pre-requisitos: Experiencia con AutoCAD muy recomendada pero no indispensable.

Contenido del curso:

Chapter 1: Getting Started

Lesson: Using the Interface

Lesson: Creating and Managing Projects

Lesson: Working With Doors, Windows, and Openings

Lesson: Creating and Modifying Spaces

Lesson: Working with Schedule Tags and Tables

Lesson: Creating Details

Chapter 2: Tools and Utilities

Lesson: Layering in AutoCAD Architecture Lesson: Changing Object Display

Lesson: Viewing and Modifying a Design

Chapter 3: More Architectural Modeling

Lesson: Working with Column Grids and Structural Members

Lesson: Working with Stairs and Railings

Lesson: Adding and Editing Floor Slabs.

Lesson: Creating and Modifying Roofs.

Lesson: Working with Ceiling Grids.

Lesson: Adding and Editing Ceiling Fixtures

Lesson: Creating and Modifying Curtain Walls

Lesson: Creating and Modifying Door/Window Assemblies

Chapter 4: Creating Construction Documentation Drawings.

Lesson: Creating View Drawings

Lesson: Using Callouts and Titlemarks

Lesson: Annotating Drawings

Lesson: Creating and Managing Plotting Sheets

Lesson: Sharing Project Files
