

Curso: AutoCAD® Civil 3D® Creating and Managing Plan Sets
Creando y Manipulando Planos de Documentación de Proyectos.

Duración: 12 Horas / 4 sesiones de 3 horas

Horario: Común Acuerdo

Descripción: This course shows how to use AutoCAD® Civil 3D® to complete tasks associated with the creation of construction documents. The course explains the functions of the Plan Production feature; its interaction with the Vault and with data shortcut project management components of Civil 3D; and the creation of documents using the Sheet Set Manager. Other topics covered include Sheet Template creation; Matchline and Frame styles; generation of Plan; Profile; Plan & Profile sheets; and alternate uses for the Plan Production feature.

Prerequisitos: AutoCAD Civil 3D Essentials o experiencia equivalente.

Contenido del curso:

Working with Plan Production Objects

Lesson: Working with Plan Production Objects

Lesson: Creating Plan Production Objects

Lesson: Editing View Frames and Match Lines

Working with Sheets

Lesson: Creating Sheets

Lesson: Preparing for Sheet Creation

Lesson: Using the Create Sheets Wizard

Finalizing Plan Sets

Lesson: Working with Sheets

Lesson: Customizing Sheets
