

Curso:

Autodesk® Revit® MEP Essentials

Duración: 16 Horas / 4 sesiones de 4 horas

Horario: Común Acuerdo

Objetivos: In this course, students use Revit® MEP 2008 (former called Revit Systems) to model MEP systems. Students learn the recommended workflows and basic skills required to navigate Revit MEP and use its tools to create and modify MEP systems.

Prerequisitos: Revit Architecture o Experiencia Equivalente.

Contenido del curso:

Designing Systems

Lesson: Preparing HVAC Models for Design

Exercise: Use Room Color Fills

Exercise: Export gbXML Data to an External Application

Exercise: Use Imported gbXML Data to Update Airflow

Exercise: Use Imported gbXML Data to Color-Fill Rooms

Lesson: Creating HVAC Designs

Exercise: Add Mechanical Parts

Exercise: Create a Supply System

Exercise: Create Duct Routing for a Return System

invent

Exercise: Inspect a System

Exercise: Route Piping

Lesson: Creating Electrical Designs

Exercise: Add Electrical Devices

Exercise: Create Lighting and Power Circuits

Exercise: Set up an Electrical Distribution System

Exercise: Create a New Lighting-Fixture Family Type

Lesson: Creating System Piping

Exercise: Create a Hydronic Supply Piping System

Lesson: Creating Plumbing Systems

Exercise: Create a Plumbing Sanitary System

Lesson: Creating Fire Protection Systems

Exercise: Create a Fire Protection System

Working in a Multiplatform, Multisystem Environment

Lesson: Collaborating on Projects

Exercise: Link and Edit Projects

Exercise: Monitor a Linked Project

Exercise: Create Worksets

Exercise: Create Phases

Lesson: Coordinating Designs

Exercise: Check for Interference Between MEP Systems

Exercise: Coordinate Revit Projects

Documenting Project Information

Lesson: Working with Schedules

Exercise: Edit Schedules

Exercise: Add and Edit Tags

Exercise: Create a VAV Box Schedule

Exercise: Create and Edit a Lighting-Fixture Schedule

Exercise: Create Panel Schedules

Lesson: Creating Views

Exercise: Create Default and Perspective 3D Views

Exercise: Create a Detail View.

Lesson: Creating Construction Sheets

Exercise: Place a Plan View on a Sheet

Exercise: Place a Section View on a Sheet
